

AJAYSAAGAR

Full-Stack Developer & DevOps Engineer

Chidambaram, Tamil Nadu, India | +91 63857-76502 | ajaysaagar.dev@gmail.com | LinkedIn | Portfolio

SUMMARY

Full-Stack Developer with hands-on experience building scalable web applications, REST APIs, and integrated IoT platforms. Proficient across modern frontend frameworks like React.js and Next.js, alongside backend architectures using Node.js, Express.js, and TypeScript. Dedicated to engineering secure, high-performance systems with granular access controls and optimized database management.

TECHNICAL SKILLS

Programming Languages: C, C++, C#, JavaScript (ES6+), TypeScript, Python, Kotlin, PHP, SQL

Web & Backend Stack: React.js, Next.js, Node.js, Express.js, React Native, Electron.js, Socket.io, JWT, REST APIs

Cloud, DevOps & Tools: Docker, Firebase, AWS, Google Cloud, VPS, Git/GitHub, Android Studio

EDUCATION

B.Tech in Artificial Intelligence & Data Science (2023 – 2027) | Sengunthar Engineering College, Namakkal | CGPA: 8.11 / 10

Higher Secondary Certificate (HSC) & SSLC | Government Higher Secondary School, Achalpuram

EXPERIENCE

Full-Stack Developer — Alphaes AI (May 2026 – Present)

- Engineer scalable full-stack web applications and microservices using Next.js, Node.js, and TypeScript, delivering production REST APIs with token-based authentication and optimized query performance.

Full-Stack Developer & IoT Engineer — Veerana R&D Innovations (Jan 2026 – May 2026)

- Architected real-time IoT dashboard telemetry interfaces connected to embedded hardware, implementing reliable bidirectional WebSocket protocols and reactive frontends.

Assistant Analyst - Web App Security — Thread Assessment and Security Consortium (Jan 2024 – Feb 2026)

- Conducted comprehensive security audits and vulnerability assessments across enterprise web applications, testing authentication lifecycles and role-based access controls against OWASP standards.

Web Developer — Embrizon Technologies (Jul 2024 – Sep 2024)

- Designed and deployed responsive web modules and user interface components, improving user engagement and cross-platform consistency.

PROJECTS

Crime Analysis Dashboard System | Backend & Database Lead • Source: GitHub

- Centralized crime data visualization and record management platform built for Namakkal SP Office across Tamil Nadu, designing relational database schemas for complex data filtering.

Bezs-IAM Platform | Full-Stack Contributor • Source: GitHub

- Engineered a dedicated Identity and Access Management system featuring granular role-based access control (RBAC), centralized token validation, and secure user authorization workflows.

Nanbenda Mart | Full-Stack Developer • Source: Web & Android

- Built a multi-platform e-commerce application handling complete product catalogs, live inventory state tracking, and end-to-end customer order processing.

HONORS & CERTIFICATIONS

Certificate of Appreciation (Namakkal SP Office) • Cloud Computing (NPTEL) • Claude in Google Cloud (Anthropic) • Ethical Hacking Essentials (EC-Council)
